

# Help within the program

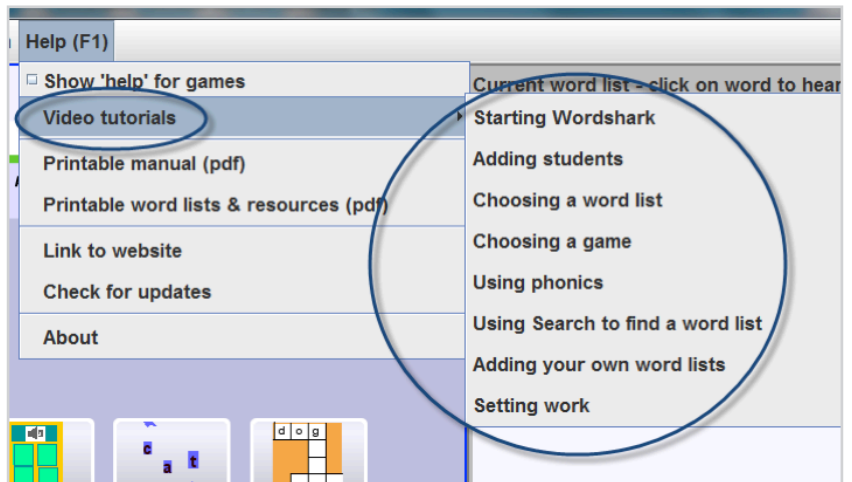

Click on *Help* and tick the box for *Show 'help' for games*.

This gives games instructions in a panel on the right during each game. Click on any section if you want it read aloud.

Turn off Help by clicking again on *Help* when no longer needed (top right).

Under *Help* you can select short **videos** on how to use Wordshark.

Teaching notes are often available, shown in the middle column under the word list titles.
