

# Personal settings

## Personal settings & choices

### Personal settings

Under *Settings for (Name)* on the top menu bar it is simple for students to set personal choices. These include sprite, icon, password, reward games, font, background colour, use of an on-screen keypad etc.

### Sprites

One of the most popular things to change is your sprite – this represents 'you' (the cursor) in the games. See under *Settings for (Name)*.

### Speeds

Within some games, you can alter the speed. Use the slider to do this.
